With the family office and family philanthropy landscape in Asia making headlines not just in Singapore and Hong Kong, but further afield, we anticipate even greater interest in our flagship annual family office conference which focuses on important topics of interest to family offices.

Successfully running since 2018, we welcome the 'who's who' of private wealth to our annual family office conference on 6 September. The 2023 edition will cover recent developments in Singapore's charity regime; trends in philanthropic giving and investments; investment opportunities into technology and alternative asset classes; as well as how family offices can manage risks arising from changes in personal circumstances of family members.

As seats are limited, you are encouraged to submit your nominations early for the conference. Feel free to reach us at familyoffice@withersworldwide.com.
